Dear President Tsuchiya:

It is with profound shock and concern that we learned of the earthquake and tsunami that struck Japan. Our hearts and prayers go out to you and your country.

We are certain our fellow engineers in the Japan Society will be working for months to devise solutions to your damaged infrastructure. Please know you are in our thoughts during these difficult times, and we would gladly serve as a resource for you in any way you need. Our 38,000 members are prepared to help you face this challenge.

Most sincerely your,

Michael Hardy, P.E., F.NSPE
President
